Important Note: It should be noted that risk in the context of this risk assessment is the risk of “harm” as defined in the Children First Act 2015 and not general health and safety risk. The definition of harm is set out in Chapter 4 of the *Child Protection Procedures for Primary and Post Primary Schools (revised 2023)*

In undertaking this risk assessment, the board of management has endeavoured to identify as far as possible the risks of harm that are relevant to this school and to ensure that adequate procedures are in place to manage all risks identified. While it is not possible to foresee and remove all risk of harm, the school has in place the procedures listed in this risk assessment to manage and reduce risk to the greatest possible extent.

Examples of activities, risks and procedures

The examples listed in this document are provided to assist schools in undertaking their risk assessment under the Children First Act, 2015. Schools should note that this list of examples is not intended to be exhaustive. It is the responsibility of each school to ensure, as far as possible, that any other risks and procedures that are relevant to its own particular circumstances are identified and specified in the written risk assessment and that adequate procedures are in place to address all risks identified.

It is acknowledged that schools already have in place a range of policies, practices and procedures to mitigate the risk of harm to children while they are participating in the activities of the school and that some school activities will carry low or minimal risks of harm compared to others. In the context of the risk assessment that must be undertaken by schools, the Children First Act, 2015 refers to risk as “any potential for harm”.

Therefore, it is important that, as part of its risk assessment process, each school lists and reviews all of its various activities (which shall include identifying those that may carry low risk of harm as well as those that carry higher risks of harm). Doing so will help the school to (1) identify, as required under the Children First Act, 2015, any risks of harm that may exist in respect of the school's activities, (2) identify and assess the adequacy of the various procedures already in place to manage those risks of harm and (3) identify and put in place any such additional procedures as are considered necessary to manage any risk identified.

The Addendum to Children First: National Guidance for the Protection and Welfare of Children published in January 2019 clarifies that organisations providing relevant services to children should consider the specific issue of online safety when carrying out their risk assessment and preparing their Child Safeguarding Statement.

The Guidance on Continuity of Schooling for primary and post-primary schools (April 2020) advises of the importance of teachers maintaining the safe and ethical use of the internet during distance learning and assisting parents and guardians to be aware of their role also. Schools should ensure that their Acceptable Use Policy (AUP) informs and guides remote or distance learning activity.

Important Note: It should be noted that risk in the context of this risk assessment is the risk of "harm" as defined in the Children First Act, 2015 and not general health and safety risk. The definition of harm is set out in chapter 4 of the *Child Protection Procedures for Primary and Post-Primary Schools (revised 2023)*.
